The members of these groups must set aside all personal needs, all the lower personality characteristics and strive within the meeting to bring about a unity which will aid the group, the people of the world and the world as a whole.

The group should not look to any
esoteric organization or leader for their
authority. Rather they should always
recognize the Truth and follow

disciples or initiates and be willing
to share and learn from all.

Their authority should come from
their own souls and from contact
w/ Hierarchy

Explain about teacher who was asked
if he was the teacher who knew all
and if his path was the true Path.
Teacher replied - Take a man
and place a candle in front of
him and behind the man is cast
a large shadow. Place that same
man in the center of a circle of
candles and he cast no shadow
but rather reflects the beautiful
light from all sides.

Then explain about what Hierarchy is and why it is important to be attuned to them.

Hierarchy is a group of very high souls who are working with and for humanity to bring about the Resurrection of God-Man.

They are working throughout the world through individuals and groups w/ energy. This energy will raise the world and humanity out of darkness of into light.

To raise mankind from the Fourth Kingdom of Nature - the Human Kingdom - into the 5th Kingdom of Nature - the Kingdom of God.

The energy the Hierarchy sends forth is very high and is felt only by a few though it touches all.

The purpose of the groups is to become like an outpost of the Hierarchy's ashram. The purpose of

These representative groups are to "step down" the spiritual quality of energy so that the average man and woman can find a point of response.

Group Development

Initiation is the door through which all men must pass. The door from the Kingdom of Man to the Kingdom of God.

- ③ Teachings and training in Telepathy (necessary, if there is to be a group link-up with the Hierarchy)

- ④ Teachings on the Etheric Body and the Healing Factors.

- ⑤ Techniques for personal and group improvement.

6. Teachings on the Master's Ashrams and their planned externalization, preparatory to the reappearance of the Christ.

7. Consideration of the Problems of Humanity (specifically, problems in the group local area), and planned definite service to humanity.

The most important element in these groups is the service rendered as a united group effort.

If you want to develop and be at one with your soul - Consc. - one must be willing to be of service

Service is a scientific process, calling forth all the soul powers into full expression on the physical plane. The person who is in service will always draw on all the resources of spiritual strength and power, wisdom and light

and directing power of his soul because
the task to be done is always to his for
the personality

"Beloved Master, who has called us
out of darkness into Light, go thou
before us! The pathway before us
beckons towards new tasks -- upreaching
goals. Lead us toward tasks too hard
for human hands and heights too
high so that in our weakness we
must lean on thee -- and leaning,
find our strength."
